About the cover

Photo by Dr. Ed Redoña (Former SABRAO Editor-in-Chief and IRRI Senior Scientist).

Established in 1975 as the International Rice Testing Program that later became the International Network for Genetic Evaluation of Rice or INGER, this global collaborative network of rice breeders and scientists involved in variety development paved the way for the development of modern rice cultivars worldwide that fueled the Green Revolution. Over 40 years, INGER shared more than 3 million seed samples representing 55,500+ advanced breeding lines for evaluation by hundreds of rice scientists at over 600 research stations in 85 countries. As a result, more than 1,000 lines were released directly as varieties in 74 countries and another 1,000 lines derived from over 20,000 crosses with INGER materials were released in 21 countries.

Photos may be used provided the contributor and SABRAO is acknowledged.

SABRAO JOURNAL OF BREEDING AND GENETICS

ISSN 1029-7073; eISSN 2224-8978

The *SABRAO Journal of Breeding and Genetics* is an international journal of plant breeding and genetics research, and is the official publication of the Society for the Advancement of Breeding Research in Asia and Oceania (SABRAO). The journal was first published in 1969. Its objective has been to promote the international exchange of research information on plant breeding and genetics, by describing new research findings or ideas of a basic or practical nature. It also provides a medium for the exchange of ideas and news regarding members of the Society.

Priority is given to articles that are of direct relevance to plant breeders with an emphasis on the Asian region. Research articles, short communications, methods, reviews, commentaries and opinion articles will be accepted or invited for publication. Scientific contributions will be refereed and edited to international standards.

The journal mainly publishes articles for SABRAO members and it is strongly preferred that at least one author should be a current member of the society. However non-members may also publish in the journal. In 2016, the journal became an electronic journal with open access. Although a publication fee is charged for all articles, the journal operates on a not-for-profit basis.

SABRAO WEBSITE

<http://sabraojournal.org/>

This website will contain information about the society, information about current officers and regional secretaries, upcoming congresses, and issues of the *SABRAO Journal of Breeding and Genetics*. In order to improve access for authors and researchers, electronic journal articles will be uploaded as soon as the journal issue is published.

ADVERTISEMENTS

Advertising will be accepted from Universities offering courses of interest to students from SABRAO countries and from book companies or computer software suppliers whose products promote the aims of the Society. International conferences may also be advertised. Prices are available from the Editorial-in-Chief.

SABRAO Board members 2018

President: Dr. Sang-Nag Ahn (Korea)
First Vice President Prof. Cheng Xuzhen (China)
Second Vice President: Dr. Edilberto Redoña (USA)
Third Vice President: Prof. Sobir (Indonesia)
Secretary General: Dr. Ismiyati Sutarto (Indonesia)
Assistant Secretary General: Prof. Bambang Purwoko (Indonesia)
Editor-in-Chief: Prof. Naqib Ullah Khan (Pakistan)
Deputy Editor-in-Chief: Dr. Sanun Jogloy (Thailand)
Treasurer: Suchila Techawongstien (Thailand)
Ex-Officio Member: Dr. Peerasak Srinives (Thailand)
Member: Dr. B.C. Viraktamath (India)
Member: Dr. Abdul Rahman Milan (Malaysia)
Member: Dr. Mohamad Osman (Malaysia)
Member: Dr. Chen Xin (China)

REGIONAL SECRETARIES

Regional Secretaries are elected by the members in each country. They play an indispensable role in the operations of the Society by:

- notifying members of Society announcements
- recruiting new members
- organizing other activities, such as local meetings
- keeping books of account and sending an audited statement to the Treasurer annually
- providing the Secretary-General with a list of financial members in their region each year

In 2018, the Regional Secretaries are as follows:

PUBLICATION FEE STRUCTURE

Please note that there is a publication fee FOR ALL ARTICLES - including SABRAO members - which must be paid after publication of the article. This requirement is to cover journal processing costs and to maintain the website. Payment can be made to the Regional Secretary (details available above or on SABRAO website) in local currency equivalent, or by contacting the Editor-in-Chief.

In 2018, the fee structure is as follows:

Category	Developing country	Developed country
SABRAO member*	US\$ 100	US\$ 125
Non member	US\$ 150	US\$ 200

*At least 1 author should be a current SABRAO member

If the standard of English is not satisfactory, SABRAO will use its own editing service, but will charge a **MINIMUM MANDATORY FEE of US\$50 per article. For articles requiring extensive English editing, authors will be charged up to US\$100 per article.** This additional fee is required because manuscripts are sent to external English editing services.

Authors certainly have the right to choose their own English editing services. If the English requires improvement after review, evidence is required that the authors have used a professional English editing service.

The philosophy of the journal is that publication fees will be kept minimal in order to ensure publication is available to scientists in developing countries. Therefore journal publication fees are reviewed annually.

ACKNOWLEDGEMENTS

The Editor-in-Chief would sincerely like to thank the many reviewers for their time and effort. A list of all reviewers will be indicated on the website.

Thanks to the publishing team for their countless hours of work for this issue:
