SABRAO JOURNAL OF BREEDING AND GENETICS

ISSN 1029-7073; eISSN 2224-8978

SABRAO Journal of Breeding and Genetics is an international journal of plant breeding and genetics research and is the official publication of the Society for the Advancement of Breeding Research in Asia and Oceania (SABRAO). The journal was first published in 1969. Its objective is to promote the international exchange of research information on plant breeding and genetics by describing new research findings or ideas of a basic or practical nature. It also provides a medium for the exchange of ideas and news regarding members of the Society.

Priority is given to articles that are of direct relevance to plant breeders with an emphasis on the Asian region. Research articles, short communications, methods, reviews, commentaries, and opinion articles will be accepted or invited for publication. Scientific contributions will be refereed and edited to international standards.

The journal mainly publishes articles for SABRAO members, and it is strongly preferred that at least one author should be a current member of the society. However, SABRAO non-members may also publish in the journal. In 2016, the journal became an electronic journal with open access. Although a publication fee is charged for all articles, the journal operates on a not-for-profit basis.

PUBLICATION FEE STRUCTURE

Please note that there is a publication fee FOR ALL ARTICLES - including SABRAO members - which must be paid after publication of the article. This requirement is to cover journal processing costs and to maintain the website. Payment can be made to the Regional Secretary (details available above or on SABRAO website) in local currency equivalent, or by contacting the Editor-in-Chief.

In 2021 (including Dec. 2020 Issue) and onward, the fee structure will be as follows:

Category	Amount
SABRAO Member*	US\$ 150
SABRAO Non-Member	US\$ 200

***At least one Author should be a current 'LIFE'/'ANNUAL' SABRAO Member.**

The official language of the Journal is English. Manuscripts may be written using British or US English provided the style is consistent throughout the article. Authors are requested to ensure that a high standard of English and use professional editing services if necessary.

At first submission of the manuscript, if the standard of English is not satisfactory, SABRAO will use its own editing service before sending for review, **and will charge a minimum mandatory fee of USD 150 per article. However, USD 200 will be charged on the manuscripts which needs extensive revisions to improve the quality of English (after taking authors consent).** This additional fee is required because manuscripts are sent to external English editing services.

Authors certainly have the right to choose their own English editing services. If the English requires improvement after review, evidence is required that the authors have used a professional English editing service.

The philosophy of the journal is that publication fees will be kept minimal in order to ensure publication is available to scientists in developing countries. Therefore, journal publication fees are reviewed annually.

ACKNOWLEDGEMENTS

The Editor-in-Chief would sincerely like to thank the many reviewers for their time and effort. An updated list of reviewers is maintained on the website.

Thanks to the publishing team for their countless hours of work for this issue.
